REFLECTION: The words "thank" and "think" hail from the same root, reminding us that thanksgiving comes from thinking about our blessings. Yet, the greater God's gifts, the less they are regarded. It's known as the law of reverse proportion: A hungry man is more thankful for his crumbs than a rich person, like you and me, for our overstuffed fridges. As we celebrate our Harvest Festival we might explore what it means to come to God overflowing with gratitude - because too often we give Him no credit at all. As we look around at the gifts we've brought today, we need to not only to think of this present harvest, but to the past mercies of God who has been good to us even before we were born.... First, without God our Father, who created the Universe, we would not exist. Without the gift of our planet, we would not be prosperous. Without Jesus Christ, we wouldn't have the hope of heaven. So many people are unaware that their very life, and all they have, is a precious gift. Harvest should encourage us to think more about thanking the Lord.
